

THE WATERCOLOUR MASTERY MENTORSHIP

Watercolour *Mastery*

A quiet, guided path for adults who long to paint

Taught personally by Anne-Marie Bond

PROSPECTUS • 2026

watercolourmastery.co.uk

A GLIMPSE OF THE WORK

What you may create with Anne-Marie

These are paintings taught step by step within the mentorship. Nothing here assumes talent, only a willingness to begin. Anne-Marie breaks each subject into small, achievable stages.

COURSE II • INK & WASH, SEASCAPES, BOTANICALS

A glimpse of what may be created in Course 2

www.watercolourmastery.co.uk

In Course 2 you'll explore ink & wash techniques, expressive brushwork and creative ways to bring spirit and feeling into your paintings.

You'll build confidence with water control, ink & wash, glazing and layering. Discover how to create atmosphere, emotion and movement in your art, while developing your own expressive style and spiritual connection.

COURSE III • ATMOSPHERE, PORTRAITURE, SPIRIT ART

A glimpse of what may be created in Course 3

www.watercolourmastery.co.uk

In Course 3 you'll explore more advanced techniques, expressive brushwork and creative ways to bring spirit and feeling into your paintings.

By developing your own signature style, working with texture, depth and emotion, you'll create paintings that truly speak to the soul. You'll be encouraged to experiment, trust your intuition and paint with confidence.

What if you walked away *a painter?*

If you feel a pull to be of service to Spirit, to yourself or to others here in the physical world, and you would love to paint but believe it is beyond you, I would like you to consider something. Within a three month teaching period, guided week by week, you could walk away calling yourself a painter.

Some of you have already sat with me through Spirit Portraiture mentorship, and this is your natural next step. Others are entirely new to me. Most of you share one thing: an interest in spiritual work. You may be a medium, a healer, or simply drawn to spirit art, yet you draw matchstick people and would never dream of booking a painting course. That is precisely who this prospectus is written for.

There is a great deal of teaching offered by people who are gifted but not trained to teach. Their intentions are lovely, yet without a proper step-by-step method the journey becomes far longer and far more discouraging than it needs to be. I am both a natural teacher and a qualified one, and that combination is what allows me to break painting down into small, safe, achievable steps, with guidance and support at every stage.

You do not have to take my word for it. Over 700 testimonials sit on my main website at theportraitofspirit.com/students-feedback, alongside the student feedback here on watercolourmastery.co.uk. They were written by people who once said exactly what you may be saying now: I cannot paint.

*“You are not learning to copy a painting.
You are learning to trust your own hand.”*

ANNE-MARIE BOND

Qualified to teach. Practised in spirit.

Twenty-eight years of teaching, mediumship and spirit art sit behind every session. A fifteen minute personal watercolour assessment with Anne-Marie is £29, should you wish to talk first before choosing your starting point.

Taught the way *beginners deserve*

Most art classes teach technique and hope confidence follows. With Anne-Marie it is the other way around. Confidence is built first, gently and deliberately, because a calm hand paints far better than a frightened one.

- **Small, supportive groups**

Never more than nine students, so you are seen, heard and known by name.

- **Personal feedback**

Anne-Marie responds to your paintings, not to a generic curriculum.

- **Step-by-step progression**

Every session builds gently on the last, so nothing ever feels out of reach.

- **No pressure, ever**

You are never put on the spot, and you always paint at your own pace.

- **A calm learning environment**

Quiet, unhurried and warm, closer to a sanctuary than a classroom.

- **Complete beginners welcome**

If you have never held a brush, you are exactly who this was created for.

- **Confidence before technique**

Skill grows naturally once the fear of getting it wrong has gone.

- **Encouragement, not criticism**

Your work is met with kindness. That is what allows an artist to emerge.

*We do not teach people to paint.
We give them permission to begin.*
